Clubs for Kids Guidelines

Juniors are not required to have their own clubs for Levels 1 & 2. These sessions are specifically designed to be an introduction to the game. **Don't invest in clubs at this stage.**

Those Juniors who will be in level 3 will require their own equipment. There will be no sharing of equipment.

Tips for Selecting Junior Clubs

1. Purchasing golf clubs can be expensive. It doesn't have to be if you purchase the right equipment the first time.
2. Juniors do not require full sets when starting out. It is recommended that each junior start with a minimum set of clubs. This could be a single wood, two irons and a putter. As skills grow then clubs can be added.
3. Cutting down clubs for kids makes the club much stiffer. For every 2 inches the club is shortened, the relative flexibility of the shaft increases by one flex; i.e. a driver with an "R" flex shaft effectively becomes a "S" flex.

Before you buy clubs, see us!

Rod Van Guilder, PGA Golf Professional is also a certified club maker and can fit each individual for the proper length and shaft flex

We carry the best junior equipment in the area and will give special rates to those juniors who attend our Golf Academy

Introduction

The main purpose of our Junior Golf Academy is to develop not only better golfers, but also better people. It is vital to remember that the child is more important than the golf swing. The goal of every junior program is to develop life long golfers; golfers who will continue to play long after the program is over.

We carefully set up our program for all age levels and abilities with restrictions on the number of students in each session. Those who have participated in our golf program in the past have enjoyed the program with many advancing their skills.
